## **Winterton Rangers**

Still waiting for a response from Winterton TC with regard to the access route for the Winterton Rangers project.

## **HELADPD**

On the 23rd Feb, at an extra ordinary Full Council meeting, NLC adopted the HELADPD. This draws a very clear line on where properties can be built. We should add that this does not automatically exclude the developer from continuing with their current proposals. However, the fact that the land has been excluded from the local plan means that the strongest possible defence can be used against any proposals for development

## **Planning**

We have been contacted by local residents regarding the latest planning application from Keigar Homes. PA/2016/120. Helen and Elaine have asked that this is heard by the planning committee due to public interest.

## **Winterton Landfill**

Ralph has been liaising with Andrew Millar at Winterton Landfill Site and has organised a site visit on 23<sup>rd</sup> at Winterton Landfill site. He has asked that the site manager contact local town and parish councils and invite a representative to attend.

## **Travellers**

The travellers who have been sited at the top of Sand Land have been served with a notice to leave.
