

## **Winterton TC**

**21<sup>st</sup> June 2016**

### **Winterton Rangers**

We understand that Winterton Town Council are considering the planning application tonight about revised pedestrian access application for the new leisure facilities, at the West Street site. We have been asked by several parents to raise their concerns about the pedestrian access that is adjacent to the old school hall car park. Clearly the recent publicity has brought this to the front of their minds. We would therefore like to formally request that the TC seek to address these safety concerns borne from the car access at School starting and leaving times.

### **Environment**

Following our recent ward walk we have ordered a few new street sign and asked for a number of potholes to be repaired.

### **PA/2015/1390**

Helen and Elaine will both be speaking in support of the residents against the application on the land to the rear of North Street and Cemetery Road. Ralph sits on the committee.

### **Call Connect**

A great number of Winterton residents have registered to use the new Call Connect bus, which started yesterday.
