Planning Appeal

Further to residents contacting us we have written to the planning inspector and fully support this refusal on the grounds of flood risk and risk to human life, as stated by the Environment Agency at the original application. The NLC Planning dept. and Environment agency have written to the planning inspector to recommend the upholding the Council's refusal of PA/2014/1076.

Potholes and street lights

We have arranged for potholes and lights that are not working correctly to receive urgent attention.

Travellers

We have again asked for the Gypsy and Traveller officer to update us on travellers on the land near to the Showground. We were told before Christmas that the Council were trying to attend to the family's needs before re housing them. Will update you all as we hear back.

New sign – Cliff Ave

Imagination Library

NLC have committed to supporting the Imagination Library for the next 4 years.
