

Winterton TC

19th September 2017

- Met with the WSCF and had a lovely afternoon, we were made to feel very welcome. Lots of issues were raised that we are looking into and will respond as soon as we have the information requested.
- Successful street surgery held and we have reported the paths on North Street. This will be looked into by the Ward Officer this week to make a better, wider footpath.
- Parking on Market Hill was raised. We have asked officers to look into a resolution, as overtaking parked cars on the blind bend is becoming hazardous.
- Very successful Tour of Britain event. The whole of the Winterton and Burton Ward looked amazing. The planters and bunting on A1077 looked fabulous. Many positive comments from local residents and visitors to the area.
- Very disappointed about the Planning Inspector's decision on the development on land off North Street and Cemetery Road. We supported the residents in their opposition of this development and please be assured we will be exercising our rights as elected Councillors at North Lincolnshire Council and will be calling in the conditions imposed to be determined by the Planning Committee.
- Met with Cathy Logan, Head at Winterton Juniors, over the summer and looked at the ongoing works and investment in the school. We also had a look around the Youth Centre Building and its potential to provide a fabulous facility. We are now looking to help Cathy with funding.
