

Winterton TC

16th January 2018

Happy New Year to everyone.

Park Street Speed Monitoring

Following residents' concerns regarding speeding vehicles on Park Street, particularly from Crakedale towards Cemetery Road mini roundabout, we asked for speed monitoring to take place. The good news is that it was found that the majority of the vehicles were travelling within the speed limit. We have asked that all the roads around Winterton are monitored on a regular basis.

Potholes

We have asked that the Potholes on A1077 that have appeared following the cold snap have treatment as a priority.

Moles in the Cemetery

Residents, with relatives in the cemetery, contacted us regarding the mole hills on the lawned areas. All were very complimentary about how the cemetery is one of the best maintained in North Lincolnshire but were upset about the mole hills. Community Services have looked into the problems on the lawned areas and have asked the pest control officer to attend. We have been assured that he works in a sympathetic way in the cemetery environment.
